Dear Parent/Carer

Re: MyON

At Chase High School, we know that Literacy is the foundation of all learning across the curriculum. Therefore, we make it our mission to support pupils in various ways with their Literacy journey. Whilst our Key Stage Three pupils experience a rich and diverse curriculum in which reading and Literacy are integral, having your support at home would really help cultivate their love of reading. Encouraging your child to read for just fifteen to thirty minutes a day can greatly benefit their academic growth and overall development.

To provide pupils with the best possible reading materials that are appropriate to their reading levels, Chase High has invested in myON. This is a digital, personalised reading platform that gives pupils access to more than 7,000 culturally diverse digital books in the core collection. Titles are specifically matched to each individual pupil's interests and reading ability.

The expectation is that pupils are expected to complete a reading quiz twice every half term – 12 quizzes across the school year – as reading, just like any other skill, only gets better with practice. We hope to raise all pupils' reading ages to provide them with the best opportunity of accessing their final exams and the world of work beyond this. myON has lots of tools to help pupils succeed at this such as audio narration, an in-built dictionary for difficult words and a recording function so they can check their own reading aloud.

All Year 7 and 8 pupils will be given an equal opportunity to read and grow their literacy skills at home with a library's worth of digital books, which can be accessed using the link below:

Their username will be the first letter of their first name, followed by the first three letters of their surname, then the year they started at Chase all in capital letters (JBLO23). The password is ABC.

Please encourage your child to access myON at home and read independently. Your support in this is very much appreciated.
