

# Curriculum Overview

Subject: HSC  
Year Group: 12

Unit 1 - This unit will develop students' knowledge and understanding of patterns of human growth and development. Students will explore the key aspects of growth and development, and the experience of health and wellbeing. Students will learn about factors that can influence human growth, development and human health. Some of these are inherited and some are acquired through environmental, social or financial factors during our lifespan

Unit 5- This unit introduces students to the values and issues that need to be considered when planning care and support that meet the needs of an individual in a health and social care environment. Student will learn about the values and principles of meeting care and support needs and look at some of the ethical issues that arise when personalising care. They will also examine factors that can impact the professionals who provide the care and support, and the challenges that must be overcome to allow access to good quality care and health services.

TERM 1- UNIT 1-	TERM 2- UNIT 5	TERM 3- UNIT 5
<p><b>KNOWLEDGE/SKILLS</b></p> <p><b>Learning aim A:</b> Human growth and development through the life stages  <b>Learning aim B:</b> Factors affecting human growth and development            B1-Nature/ Nurture Debate            B2- Genetic Factors            B3- Environmental factors            B4- Social factors            B5- Economic factors            B6- Major life events  <b>Learning aim C:</b> Effects of ageing            C1: Physical changes of ageing            C2: Psychological changes of ageing            C3: Societal effects of an ageing population</p>	<p><b>KNOWLEDGE/SKILLS</b></p> <p><b>Learning Outcome A-</b> Examine principles, values and skills which underpin meeting the care and support needs of individuals.
